- ✓ doesn't effect beer head retention
- ✓ non-tainting - doesn't effect taste nor smell of drinks
- ✓ low foaming
- ✓ rapid action
- ✓ effective in hard and soft water
- ✓ reduced use of hazardous substances
- ✓ phosphate and phosphonate free
- ✓ safe in septic tanks if used as directed
- ✓ readily biodegradable
- ✓ not tested on animals

application and directions

Pre-flush system thoroughly with water to remove beer and drinks residues. Charge with cleaning solution and pull through or circulate system several times during minimum half hour contact time. Rinse thoroughly with clean water.

Do not leave cleaning solution in the system overnight. May also be used to clean trays, nozzles and fittings. Avoid prolonged contact with aluminium. All dispense equipment must be cleaned at least once every seven days.

dilution ratios

General cleaning: dilute 1:100 parts COLD water.
Heavy cleaning: dilute 1:50 parts COLD water.

Proper dosage saves cost and minimises environmental impact: Delphis Eco encourage proper dosage and users to reduce waste going to land fill by recycling empty bottles. Use the above dilution ratios for best results.

areas of usage

- Pubs, bars, cellars, clubs, cafes, restaurants, kitchens, etc:
- pipes and associated equipment
 - beer and soft drink lines

safe handling and storage

Full guidance on the handling and safe storage of the product can be obtained from the safety data sheet including first aid measures and health and safety requirements.
