Pump installation process

Completed Elephant Pump

FOR YOUR GENEROUS SUPPORT OF A PUMP PROJECT THAT WILL HELP PROVIDE SAFE, PROTECTED WATER AND VITAL SERVICES TO KUKALAMBO IN MALAWI AND TRANSFORM 250 LIVES, WE THANK YOU.

Sponsorship of a water pump project is the most direct way to help poor communities. Your contribution is helping individuals and families fulfil their basic human right to safe water and leading to measurable improvements in health and education, as well as increased social and economic opportunities. While the pump is installed by Pump Aid, it is community driven and owned to ensure lasting sustainability and success for years to come.
